

Oz Olmos, Member and Cal Giant Race Team Member

"As a pro cyclist I know that effective training requires more than a beautiful location. Safe and clean roads are a must. The Bike Coalition is a strong supporter of keeping our roads safe and clean."

MAKING SLO COUNTY INTO A BETTER COMMUNITY

We can make our community safer and more livable by promoting bicycling and walking—two of our county's most joyful activities.

There are so many benefits to making our streets better for bicycling. It means more peace, quiet, and simple living. It's also great for our businesses, health, and environment. Our streets should be places where people want to spend time and enjoy themselves.

A better community for bicycling means a better community for everybody.

BUILDING A SAFE AND LIVABLE COMMUNITY

What would it be like if it was easy to get around by bicycle in our community?

What if there was less traffic and our neighborhoods were quieter?

Imagine a community where the streets are truly enjoyable and accessible places; where bicycling and walking are easy ways of getting around and kids have a blast on their way to school.

That's the kind of community we are working for at the San Luis Obispo County Bicycle Coalition.

Shaba Mohseni, Coalition Member and Local Bike Commuter

"Often when I ride my bike, I think about how the Bicycle Coalition has been forging ahead to ensure that I have more safe bike lanes on which to pedal. We are lucky to have this organization working at the forefront of community issues and educating people about how cars, bikes, and pedestrians can fruitfully coexist."

Bonnie McKee, Coalition Member and Safe Routes to School Parent

"Bikes are a great way for us to be together as a family and to notice what is going on in our community."

We appreciate all that the Coalition does to make our world a better place."

COALITION TRIUMPHS

Since 2001 the Bicycle Coalition has worked to make SLO County better for bikes:

- New bike trails and bike lanes all over the county
- Clean roads to ride with good pavement
- Parked thousands of bikes with our Bike Valet service
- Gained support at the local, state, and federal levels for better transportation policy that effects us right here in SLO County like the Safe Routes to School Program
- Improved public perception of bicycling with our Share the Road campaign
- Provided low cost bicycles to new commuters

Our strength comes from our members. Together we make a difference — at government hearings, parking bikes at Bike Valet, working on Safe Routes to School, and energizing more people to ride bikes.
